KZA/ENT 2021 E/M Coding & Office Procedure Coding

Description:

Learning Objectives

- Demonstrate comprehension of the difference between the 2020 E/M documentation requirements compared to the revised 2021 E/M documentation requirements.
- Demonstrate understanding of when to report consultation codes instead of other E/M codes to increase reimbursement when applicable.
- Report E/M services with modifier 25 compliantly.
- Distinguish the difference between the diagnostic endoscopy codes 31231, 31575 and 92511.
- Describe the documentation requirements for using the cerumen removal code, 69210, and when an E/M code may be separately reported.
- Apply E/M modifiers accurately.
- Describe the telehealth guidelines changes allowed during the public health emergency
- Identify key requirements for "incident to", direct and shared/split billing non-physician practitioners (NPPs)

Evaluation and Management Coding and Documentation		8:00am-10:00am
